

Parkhill Wood Questionnaire. For pdf forms please use the fill in forms function.

1. *We aim to reduce the amount of rhododendron and sycamore within Parkhill Wood and replant with a mix of scrub species (such as hazel, crab apple, hawthorn) and native trees. Do you agree or disagree with this broad strategy? Please tick: Yes or No*

2. *We aim to reduce areas of bracken domination by planting native species such as aspen and birch to improve wildlife diversity. Do you agree or disagree with this statement? Please tick: Yes or No*

3. *In some of the areas where we remove rhododendron and sycamore we aim to leave open spaces that will encourage more butterflies, moths and birds. Do you agree or disagree with this statement? Please tick: Yes or No*

4. *Do you agree or disagree that the clearance of rhododendron is essential to improve biodiversity? Please tick: Yes or No*

5. *It is thought that the rhododendron maze (50 passages) could be replaced with native species such as willow, hazel, crab apple, guelder rose and gean cherry to re-create a maze structure that would include flowering trees. Using the compartment numbers on the maps please note any areas that you think that rhododendron should remain as a feature? Please indicate why you think that an area should continue to have rhododendron.*

6. *Do you agree or disagree that reducing the amount of sycamore is important to improve biodiversity? Please tick: Yes or No*

7. *Are there any areas that you think that sycamore should remain? Please indicate why.*

Parkhill Wood Questionnaire. For pdf forms please use the fill in forms function.

8. At Parkhill we aim to continue maintaining the path network (Fig 2) of just over 6km of trails. *Do you agree or disagree that maintenance of over 6km of paths in Parkhill is a priority to continue recreational activity? Please tick: Yes or No*

9. *Would you agree or disagree that in some parts of Parkhill Wood routes for mountain biking should be a priority? Please tick: Yes or No*

10. *Using the compartment numbers please indicate which areas you think mountain biking could be developed.*

11. *Please indicate below if there are paths within Parkhill that should be improved to benefit all abilities.*

12. *The area surrounding the fishponds requires to be re-fenced (Fig 1). Please write in the space below if there is any additional work to that would benefit ecological interest or recreational facilities at Parkhill Wood. Please use the compartment numbers and names noted on the maps to indicate the location to which you are referring.*

Email your completed questionnaire to alan.brown@renfreswhire.gov.uk and if you are happy to, please include your name with your response.

Many thanks for your help.
